

2017 International Symposium on Computational Design and Engineering

The International Symposium on Computational Design and Engineering 2017 (ISCDE 2017) will be held during **December 13-16, 2017** at the **HCMC University of Technology in Ho Chi Minh, Vietnam**. Please come and join us to have a successful conference and enjoy fantastic nature of Vietnam at one of its best season.

Date

December 13~16, 2017

Venue

**HCMC University of Technology,
Ho Chi Minh, Vietnam**

Important Dates

Extended Abstract Submission	August 31
Abstract acceptance notification	September 6
Conference Program Confirmation	September 22
Registration	October 31

Authors can choose submission type: General Session, Tutorial Session (for Vietnamese), and Poster Session (for Students)

All papers for tutorial session will be invited by Symposium Organizing Committee.

Excellent paper presentations will be considered to be published in JCDE (Indexed in ESCI and SCOPUS) journals after submission of full paper and review process.

Organized by

Society for Computational Design and Engineering

Co-hosted by

MES LAB

Contacts

Kyung Ho Lee
Organizing Committee
Chair of ISCDE 2017

Professor

Department of Naval Architecture & Ocean Engineering

Inha University

Topics of Interest

The topics of General Session for ISCDE 2017 are as follows (but are not limited to)

- CAD/CAM/CAE/PLM/BIM/CDE and related topics
- IT convergence technologies for Industry 4.0, etc.

The topics of Tutorial Session for Vietnamese (Invited papers)

- 3D printing and applications
- Industry 4.0
- VR, AR and other advanced technologies in design
- Simulation (especially in "mould & die" area)
- Best practices of Korean companies (Plant, Manufacturing...), etc.
